THE SOUND OF SOUL

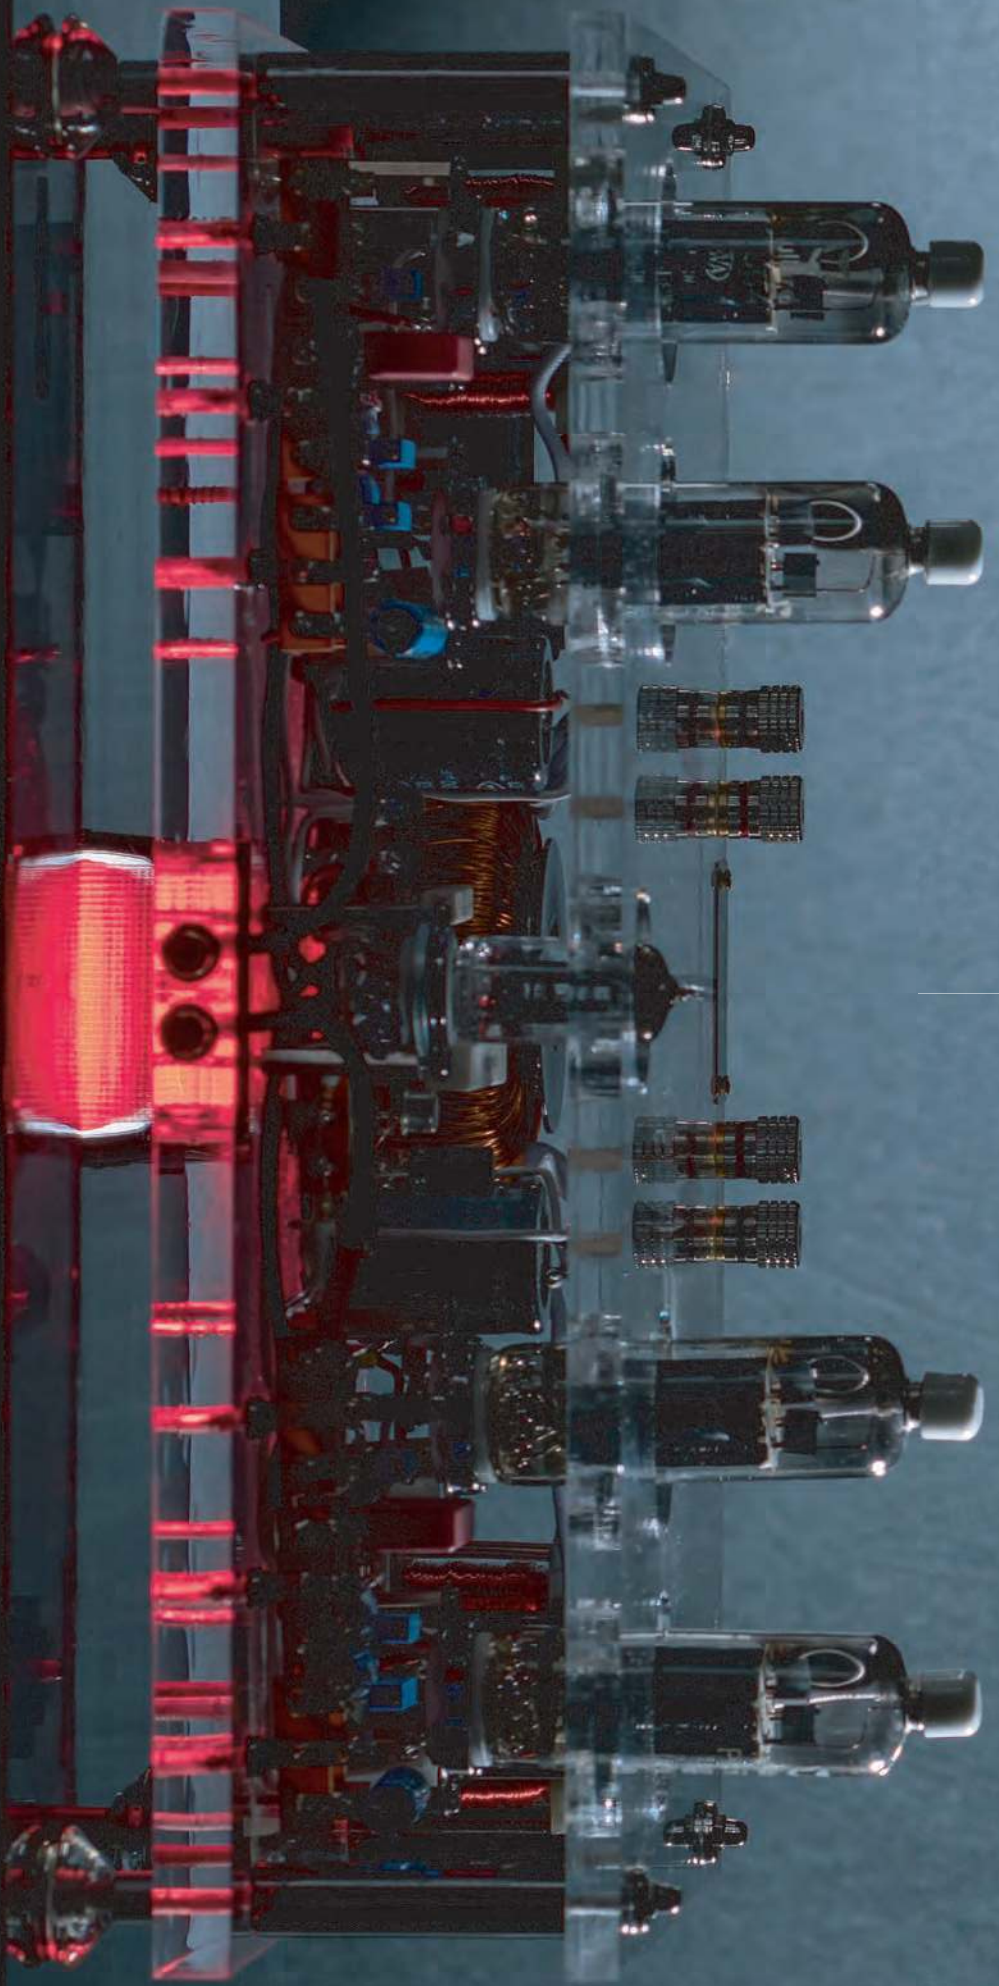

# SEDUZIONI

Fusion of organic and non organic materials, merging in a perfect accord and rhythm

**orgonico agg.**  
**der. di orgone**  
**(pl. m. -ci).**

Every single vital energy  
unit of which the  
whole nature  
is permeated.

"I'll write home every day and I'll send all my loving to you".

All My Loving

Beatles

WE LISTEN TO MUSIC WITH OUR HEARTS, IT'S AN EMOTIONAL WAVE WE RIDE WITH ALL OUR SENSES.

I slipped a glass of white wine, he checked his SAX once more, before starting to play.

We looked into each other's eyes and have never stopped since.  
IT WAS A SWING TUNE.

An old-fashioned love, made of ROMANTICISM, SEDUCTION AND MUSIC in the undivided space of our house.

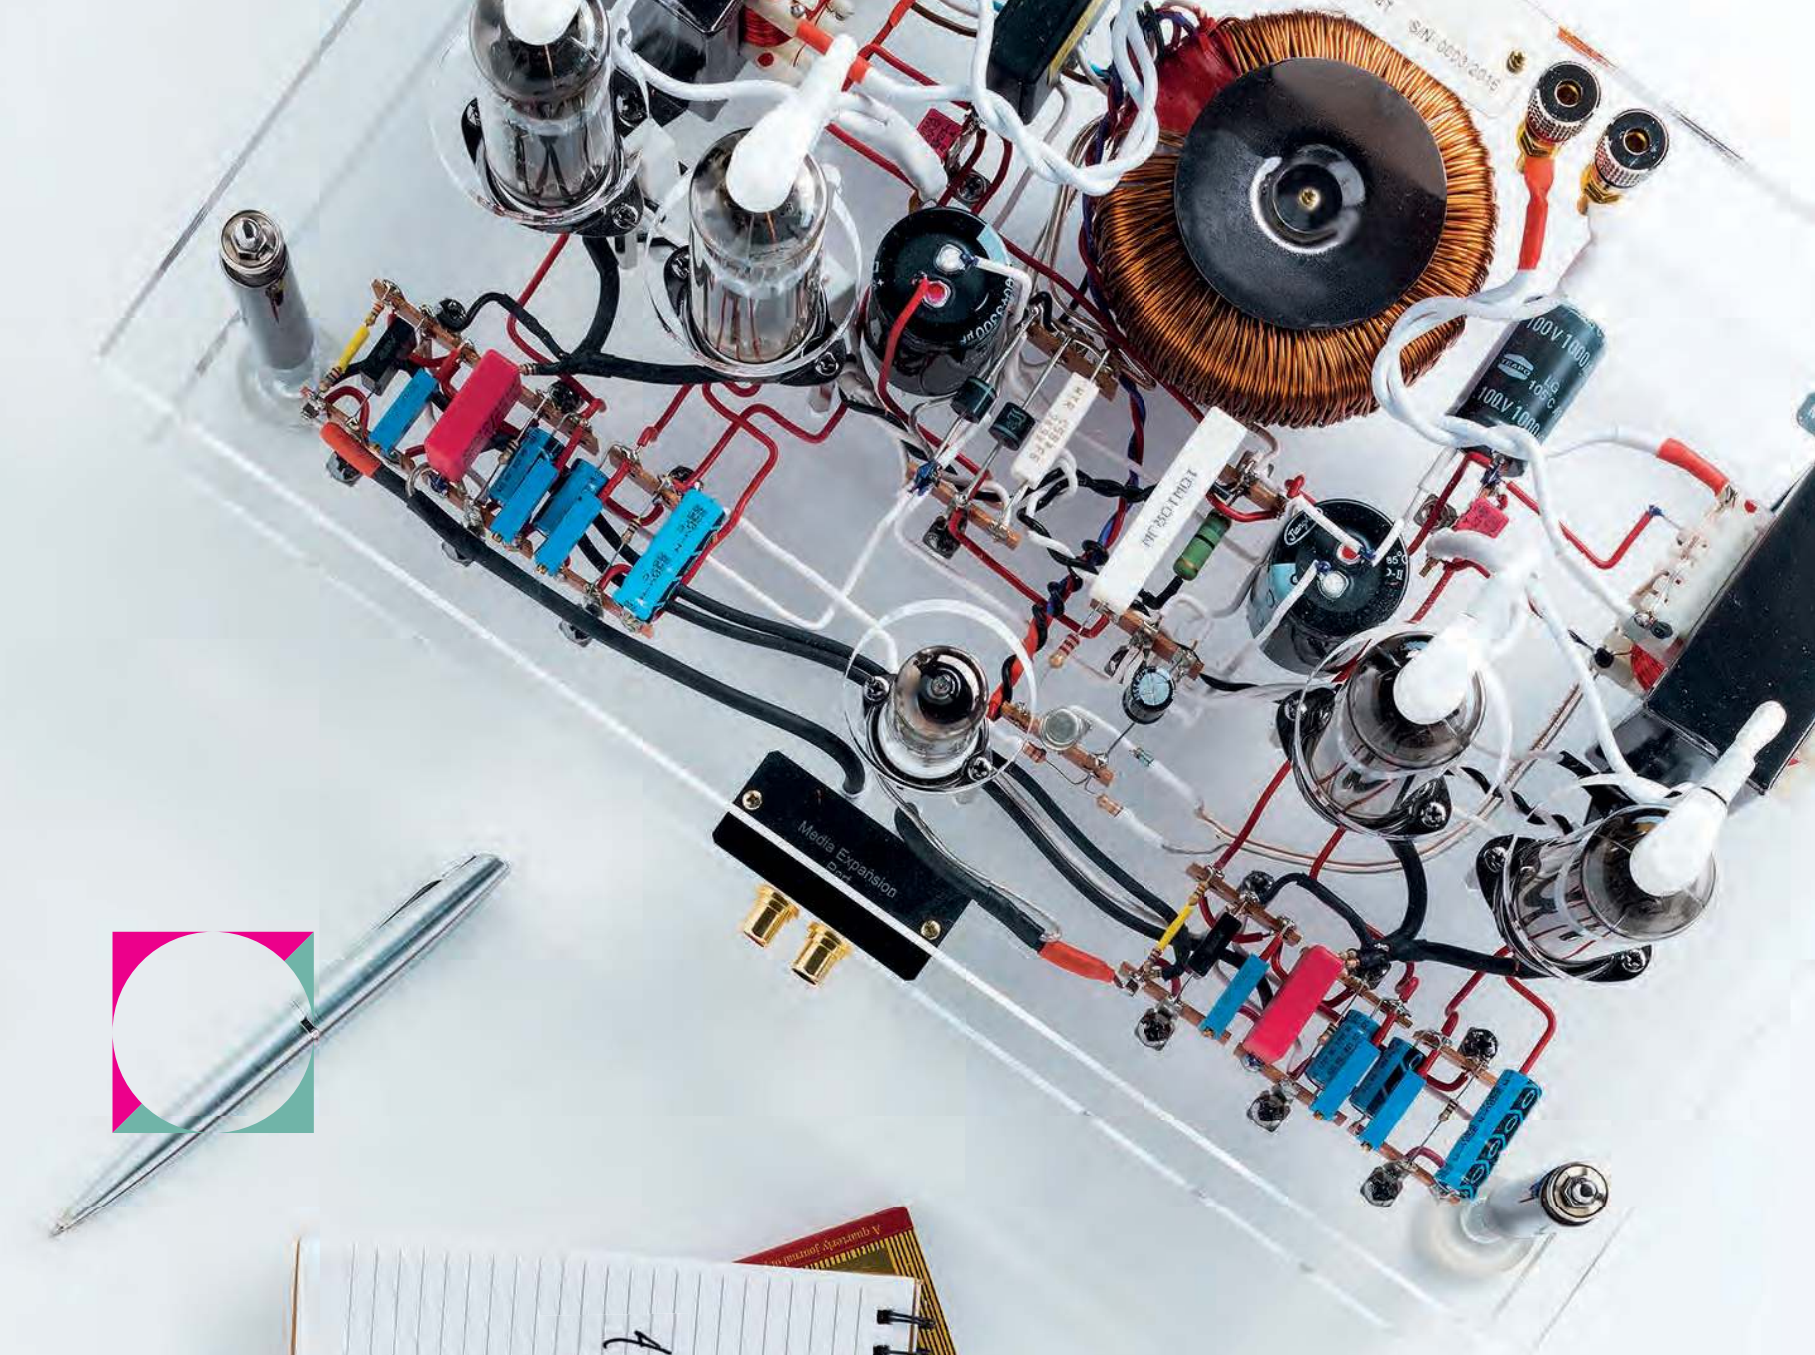

FEELING, LIGHT, SOUND

A spacious house where the bouncing notes of jazz could be blown gently, soundtrack of our moments out of this world.

Nothing is left to chance: the bright-colored walls, the pop shaped furniture, each ornament, each touch of style sounds like a love declaration.

NOTES BLOW GENTLY IN THE SPACES, FILLING THE ROOMS, SOUNDTRACK OF OUR MOMENTS OUT OF THIS WORLD.

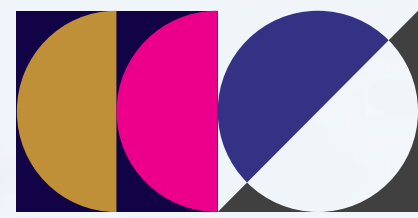

*A stasera.  
Cio' mi manchi.*

The only thought:  
to meet again as  
soon as possible.

Notes on our skin.  
My eyes full  
of you.

**Design and technology merge into one single object: Horgonic.**

Design and technology merge into one single object: Horgonic, an emotional amplifier that propagates music both from analogue and digital sources, from vinyl to high quality web streaming. "Make your own idea alive in one object", this is the concept that inspired its realization. The hand-made manipulation of the electronic components, makes Horgonic an evocative piece of art with a

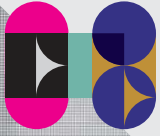

specific functionality: high fidelity music listening. Electronic Tubes give off heat, heat is love, it's life. Wires simulate the map of paths where anyone's gaze can wander through the limpidity of the methacrylate or crystal slabs. The lines recall 70s Pop Art. A vintage design exalted by a retro touch that aims to an essential and neat design, underlined by the use of original Electronic Tubes from the 50s, used as active components to amplify music in class A to obtain excellent sound performances. The manual assembly of the electronic components "on air" is unique in its kind, and the special audio transformers are completely handcrafted, without the help of automatic machines. The wiring made of silver strings and silk protections, enrich the object certifying to the buyers its innate evocative and qualitative value, that won't change but will actually grow over time. Horgonic, through its container inspired to Reich's orgone box (Freud's disciple), allows a multisensory fruition of music, combining its peculiar technical, aesthetic and functional features with the emission of lights and colors projected through the methacrylate or crystal slabs.

These light effects creates a blue reflection that underlines the rhythm during the psychedelic listening. Horgonic is morphochromatic, and thanks to the limpidity of its slabs it dresses the shades of colour of the surfaces on which it is placed, in a non-invasive way compared to the commercial in the box metal amplifiers. The harmonious result makes it match every style of furniture perfectly, classic or modern.

SINGLE END  
IN CLASS A  
THERMIONIC TUBES  
AND CHROMATISMS  
DIMENSIONS  
37x24x18 cm  
Weight 6Kg

1. Hand-assembled product
2. Methacrylate or Crystal container
3. Class A Single End amplification
4. Electronic Tubes
5. Professional electronic components
6. Red copper and grain-oriented transformers
7. Mono Ampli rack stackable version
8. Solid point to point wiring
9. Registered model

The electronic scheme applied to Horgonic uses project indications from USA patents "Stable high gain direct coupled amplifier" (1966) and "Tube overdrive pedal using low voltage" (1991).

Love, work and knowledge  
are the well-springs of our life.  
They should also govern it.

Wilhelm Reich

(24 March 1897 – 3 November 1957)

CAPTIVATING, IRREVERENT, COZY

Over the city hustle  
the songs of our  
hearts, the  
transparencies,  
a perfect atmosphere  
with old friends.

A special and cozy ambience,  
The warm tones of Horgonic's  
tubes, harmony of words and  
understandings, circuits of pure  
energy and happiness.

CRAFTSMANSHIP, ART, CREATIVITY

Love of art, aesthetics, beauty.  
Design is not only functionality, it also has  
to arouse emotions, tell a story.

Horgonic, through its unique design,  
tells us of Italy's craftsmanship,  
engineering and creativity.

IN THE BACKGROUND THE NOTES SPREAD FROM CLASSIC AND  
DIGITAL SOURCES, EMOTIONS ARE IMMORTAL.

Fusion of design and technology,  
Horgonic is a little work of art that  
amplifies senses through light and  
sound, an object with a warm soul.

Horgonic can be completed with a wide range of accessories for one to live a fully multisensorial listening experience.

A COMPLETE COORDINATED  
AND CUSTOMIZABLE  
HI-FI LINE

### WOODEN AUDIO SPEAKERS

Three way floorstanding speakers in a high-efficiency bass-reflex system.

Dimensions:  
54x38x30 cm

### TURNABLE PLAYER

In transparent methacrylic for 33 and 45 RPM vinyl listening.

### MULTI ENTRANCE VALVE PREAMPLIFIER

With simultaneous connection to systems equipped with BT (Bluetooth), turntable platter and CD.

### How to customize your Horgonic

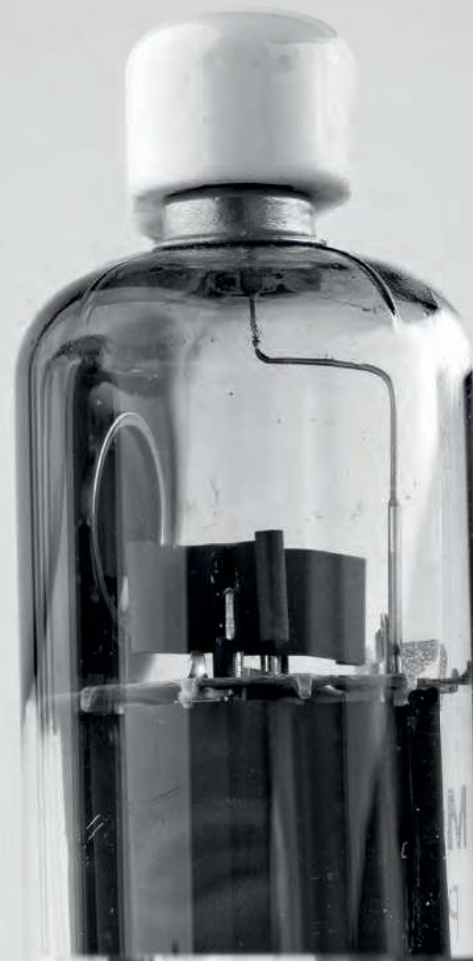

Replace the methacrylic slabs with the crystal ones that emphasize its design making it even more precious.

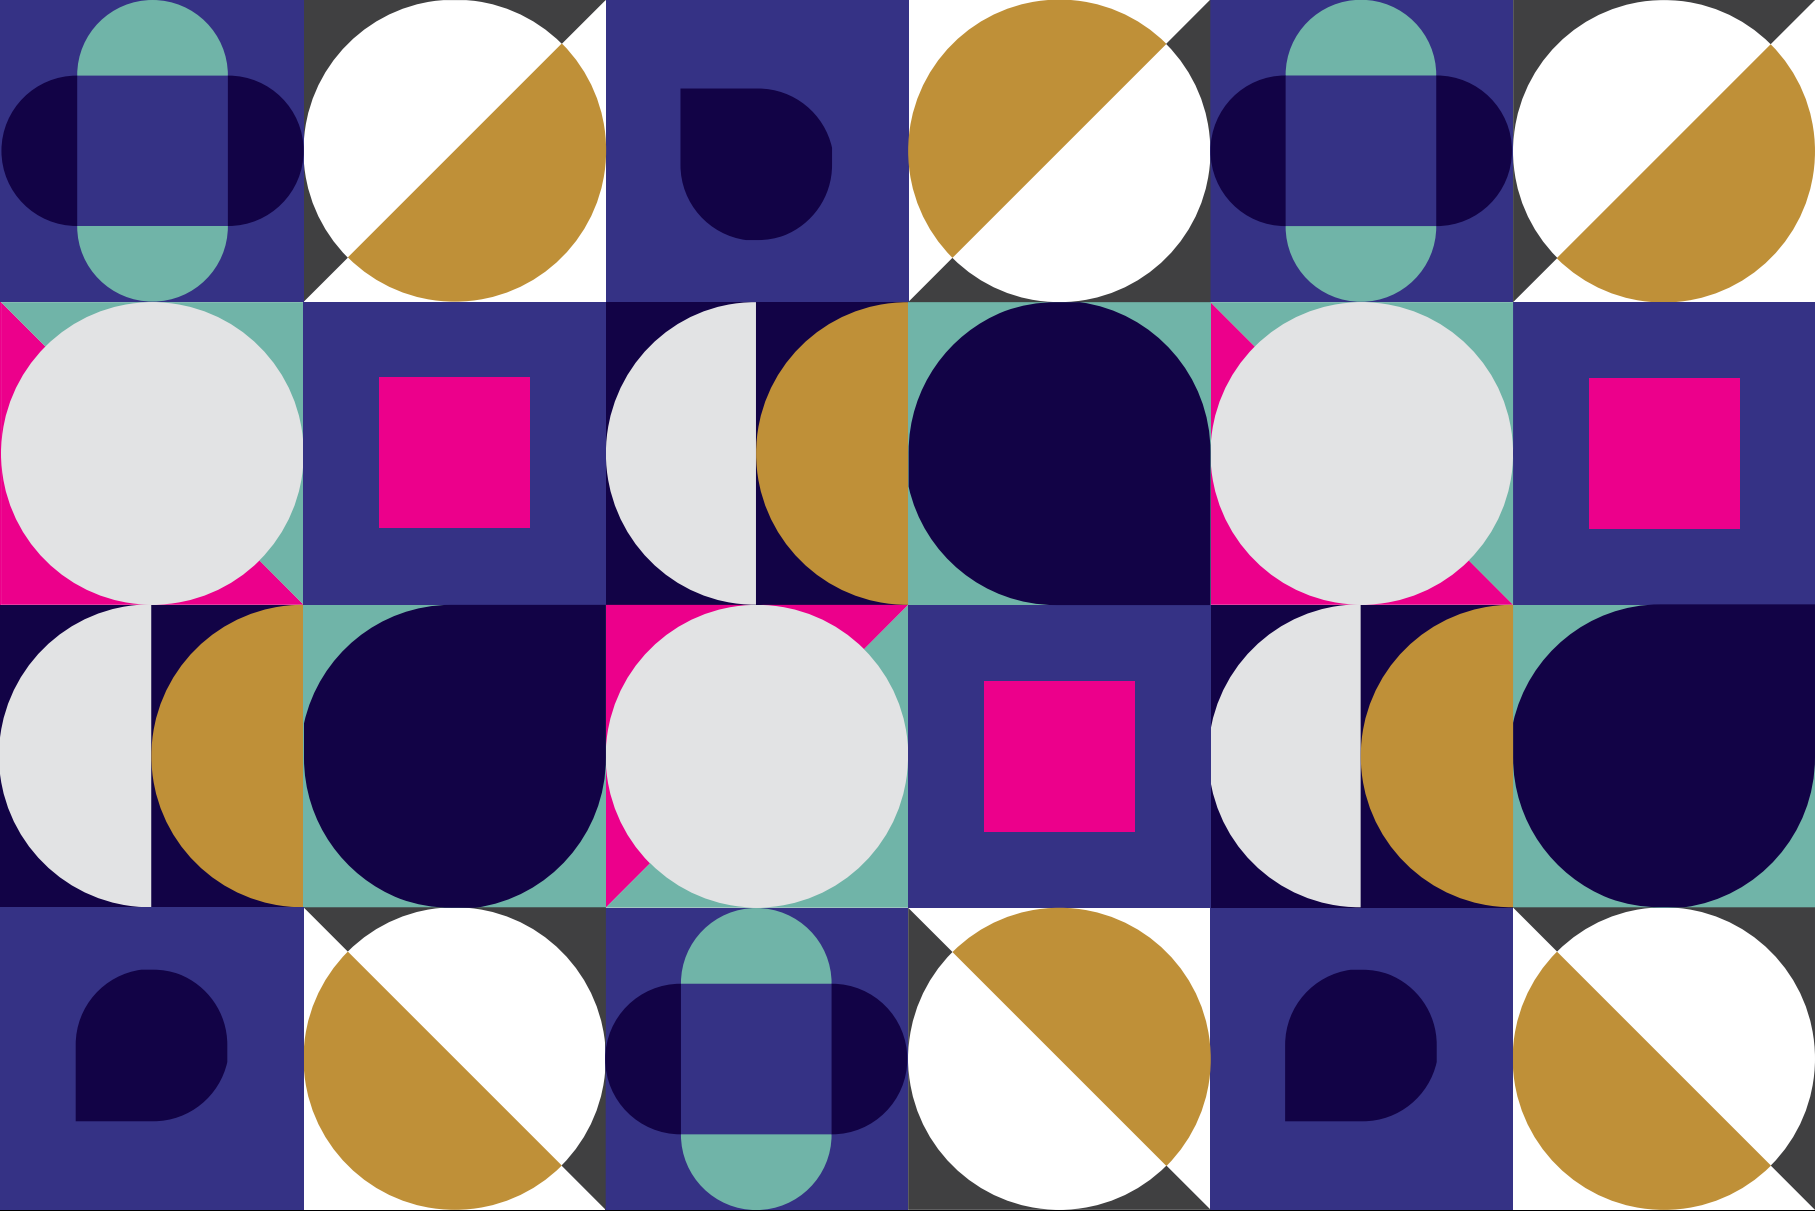

Add the remote control for the multicolored leds.

Choose among the different colors available for the internal chrome finishing: steel, gunmetal grey, gold.

Laser engrave texts and/or logos on the upper slab.

Shape your audio speakers, choosing among different colors and woods.
